

# CARISSA KOMALASARI

## PROFILE

I am a hardworking and determined individual who always strive to do my best. I have passions for learning and sharing knowledge which have led me to become a laboratory assistant for 2 years in my university. I am imaginative, curious, and open-minded. I am eager to be challenged in order to grow and further improve my skills.

## WORKS

### Portal Software Engineering Lab.

Developed a website using Laravel Framework to handle devices rental in Software Engineering Laboratory UMN.

### Eyecandy E-Commerce

Developed an e-commerce website using Codeigniter Framework.

### Premiere League

Developed a native progressive web application to see Premiere League schedules and scores using Workbox and Materialize Theme Framework.

### Movie and TV Show App

Developed a native Android application using Java. This application used third-party libraries, such as Retrofit and Room. The data was retrieved from The Movie Database.

### UMNTV Official

Developed a website using Wordpress. Our team designed and developed our own template using Bootstrap Framework.

## ACHIEVEMENTS

First Winner of CSIC 2019 (A creative and innovative programming competition)  
Becoming an Expert Android Developer Certificate  
Building Progressive Web Apps Certificate  
Academic Scholarship from UMN  
Six Laboratory Assistant Certificates
